PROFILE

Experienced front-end developer with 3+ years of expertise in building high-performance, scalable web applications. Passionate about optimizing UX/UI, enhancing accessibility, and leading feature development. Skilled in modern JavaScript frameworks, collaborating with cross-functional teams, and ensuring code quality through best practices. Proven ability to deliver impactful solutions and drive continuous improvements in front-end development.

EMPLOYMENT HISTORY

May 2023 — Present   Front End Developer, Silverwind   Kuala Lumpur

- Developed and maintained **EVO**, AIA Malaysia's web application, transforming insurance procedures from paper-based to fully digital experiences.
- Implemented **43+ transaction types** within 12 months, enhancing customer accessibility and efficiency.
- Identified and resolved **critical production issues**, reducing downtime and improving application stability.
- Collaborated with UX/UI designers, business users, middleware developers, and business analysts to refine the **desktop-first** approach, ensuring a seamless user experience and smooth integration across systems.
- Optimized performance by leveraging **Vue.js, TailwindCSS, AEM, and Azure**.

Jan 2022 — May 2023   Front End Developer, Denstu International   Kuala Lumpur

- Led front-end development for multiple **websites, mobile applications, and landing pages-**, delivering projects from concept to deployment.
- Standardized all outputs with a **responsive, desktop-first strategy**, improving maintainability.
- Assessed UX/UI designs for **technical feasibility**, reducing design-to-development friction.
- Worked closely with product managers and back-end developers to implement **new feature developments** efficiently.
